### **COVID-19 Related Office Update -Effective 6/1/20**

With the ongoing COVID-19 pandemic, Town Center Dermatology has had to make several temporary changes to how we operate to maintain our commitment to health and safety of our patients and our staff, however our mission to provide care for our community remains.

- For your convenience and flexibility, we now offer **telehealth/video services** for the appropriate patients to still be seen by our providers without patients leaving the comfort and safety of their home. To utilize this option, you may call us at 636-821-1661 to schedule a telemedicine office visit.
- We plan to **resume regular office hours for in office visits on June 1st 2020.**
- For your safety we ask that only patients receiving treatment remain in our waiting room. Guests accompanying patients are encouraged to wait in their car to reduce the number of waiting room occupants and promote social distancing.
- Town Center Dermatology, it's staff and providers are taking all the necessary precautions to ensure a safe environment for staff and patients.
- Our staff & providers will be wearing masks & performing extra cleaning protocols.
- **We request all patients wear a mask** when in our office.
- **If you have experienced fever, chills, cough, difficulty breathing or have been in close contact with a confirmed COVID-19 patient, please call us to reschedule.**
- Aesthetician services will also be rescheduled, however you may continue to purchase products in office during our new office hours, or call to have any of our products shipped to you for a nominal shipping fee.

We strive to remain open and continue to provide the same excellent skin care that we always have. We thank you for your support and understanding through a difficult time as we do our best to keep our staff and patients safe!
